## Easy Airpress Standard 4 HS

### Stressless work

The EMBLEM Easy Airpress Standard 3 HS permits punch and eyes in one work procedure.

The pneumatic pressing of the eyelets will be done in one step (punching holes and pressing grommets).

The Eyed laser pointer assists you in the positioning of the grommets. It will be delivered with a battery case and a power pack.

The Eyed laserpoint will be displayed centrally and so allows an exact positioning of the eyelet.

The Easy Airpress Standard 4 HS with Eyed pointer, rollable table and the associated boxes offers you a convenient possibility to simply eye banners, textiles and the like.
